Authentic Villages of Italy Association - Associazione Borghi Autentici d'Italia	Municipality of Biccari - Comune di Biccari	The cross-border HOSPITIS project aims to implement, for the network of municipalities involved, a new approach to the creation of "local systems of hospitality" aimed at mobilizing skills and available assets and at the same time to facilitate the opening of the "local community", especially those located in the most marginalized areas in comparison to mainstream tourist flows, but that are not less rich in attractors and resources to be offered on the market. HOSPITIS model aims at promoting a "soft" way to enjoy tourist destinations, a tourism that respects the "biodiversity" of places and able to appreciate the authenticity of available assets. A tourism that should provide answers to demand-side segments interested in "living" places and not only in "contemplating" them. <p>1. University of Mediteran – Faculty for Information technology – the first private non-profit university in Montenegro</p> <p>2. Smart City – an innovation driven NGO, with main focus on widening the use of ICT in the society</p>		<p style="text-align: center;">“Cross-border Innovative Tourist Platform”</p> <p>The sharp increase of international tourists in both Montenegro and Albania lately, emphasizes the need for an integrated experience of tourists for all natural heritage and areas, regardless of the national borders. In order to build a truly sustainable tourism industry, technology has to be part of the solution. The digital technology has not just changed one element of the travel experience; it’s changed all of them. Remote check-in, paperless boarding passes, real-time travel news, maps, GPS, messaging, shopping, camera etc. now more than ever define everyday experience everywhere, including tourism, especially when combined with new communication tools, social networks, digital content, smart phones and other gadgets. Fully harnessing the latest technologies and understanding how the customer is using technology to plan their tourism will help expand markets and could cut out intermediaries to some extent.</p> <p>One of the main problems that currently undermine the overall tourism development is lack of cross-cutting technological solutions in develop attractive, innovative, environmentally friendly and sustainable adventure/rural tourism offers.</p> <p>The proposal will tackle this issue by sharing of Italian experiences with Albanian and Montenegrin partners in defining and building of infrastructures for biking, hiking, photo tracking and other forms of adventure tourism offers, connecting these routes with those on the other side of the border and the use of smart systems and new ICT solutions in tourism.</p> <p>Objective</p> <p>To contribute to socio-economic development of the cross-border region and good neighbourly relations between Montenegro, Italy and Albania, thus valorising its touristic potentials through smart, sustainable and innovative approach.</p> <p>Specific objectives</p> <p>To promote and enhance the quality and variety of the tourism offer in the border area, by cooperating and exchanging experiences in adventure tourism and focusing on smart and environmentally friendly touristic offers that valorise the natural and cultural heritage of the border region.</p> <p>Outcomes</p> <ol style="list-style-type: none"> 1. Raised cooperation, capacities and exchange of know-how between tourist stakeholders from cross-border region of Montenegro, Albania and Italy. 2. New touristic offers in adventure tourism designed and created, with special focus on biking, hiking, and photo tracking through tourist friendly 	<p>Central public institution, Local public institution, Other body governed by public law, Private non-profit organisation</p>	<p>Italy, Albania</p>	<p>predrag.rakovic@gmail.com</p>

Regional Dvelopment Agency of Korçe(SME), Albania (Original) Agjensia Rajonale e Zhvillimit (SME), Korçë, Shqipëri	Municipality of Maliq - Bashkia Maliq	<p>PROJECT SUMMARY</p> <p>The project addresses the need to enhance landscape natural and cultural resources for a competitive and sustainable tourism, promoting "territorial" and non-monoseasonal sustainable tourism patterns. The main objective is to encourage synergies between the traditional approach to territorial, cultural and sustainable tourism development practices. The project includes piloting actions in some representative locations of the involved countries and contributes to the development of a common strategy in natural resources and tourism planning and management.</p> <p>Based on environmental mapping, geo-localised field best practice, site accessibility, travellers itineraries, the project will be providing new opportunities for protected areas and eco-tourism actors. The project aims at developing strategy policy and actions that will be made available to public authorities, tourism operators and SMEs.</p> <p>Specific objectives</p> <p>SO 2.1: Boost attractiveness of natural and cultural assets to improve a smart and sustainable economic development</p> <p>SO 2.2: Increase the cooperation of the key actors of the area for the delivery of innovative cultural and creative products</p>	Central public institution, Local public institution, Other body governed by public law, Private non-profit organisation	Montenegro	rdakorca@yahoo.com
Tatics	Municipality of Fasano	T-DDRIM wants to contribute to the dissemination and development of integrated digital solutions and the development of a tourism system "smart" particularly geared to the enhancement of natural and cultural heritage hidden, encouraging participatory approaches and the creation of a tourism offer bottom-up that would also involve the communities and territories.	Central public institution, Local public institution, Other body governed by public law	Montenegro	francescafavia78@gmail.com

		<p>2. – T-DDRIM: OPERATIONAL OBJECTIVES – The main operational objectives of the project:</p> <ul style="list-style-type: none"> a. Increase in open data availability and development of digital services for tourism in the project area; b. Creating groups of experienced operators and reference to the use of Linked Open Data in tourism and promotion of cultural heritage; c. Development of tourist routes and exploitation of hidden assets, with "blended" courses, digital and experiential; d. Creating a brand that identifies values and tourism and cultural heritage; i. Implementation of a support structure to the digital-service destination management. 			
BLEKALB Foundation / Fondazioni BLEKALB	BLEKALB Foundation (EN) / Fondazioni BLEKALB (AL)	<p>The title of project: Tourism product development in Albanian rural areas, through the promotion of agro tourism from local communities.</p> <p>Main objectives:</p> <ul style="list-style-type: none"> • Improvement of social – economic situation of the communities where the forms of agro tourism project will be developed • The promotion of culture, traditions, gastronomy, and other traditional characteristics. • The diversification of the tourism product and the possibility of having tourism flows throughout the year • The conservation, development and sustainable use of biodiversity as key factor for capacity building to support tourism activities in rural areas. • The prevention of internal migration from rural areas to urban ones for better living conditions and work possibilities • Creating a network of agro tourism units <p>Expected results:</p> <ul style="list-style-type: none"> • The creation of diverse tourism packages for Albania, including many new destinations suitable for all forms of rural and agrotourism • Chances to expand further the business in the future • For the inns owners will be a potential and stable market, only through their daily activities (agro tourism) and the traditions according to geographical zones • The establishment of a multi-partner cooperation between public, private and local communities • Less unemployment in Albania’s rural areas that offer local tourism services and products • Development of agriculture and Craftsmanship 	Central public institution, Local public institution, Private non-profit organisation	Puglia Region, Montenegro, Albania	kkume09@gmail.com

<p>Albanian Association for Protection of Environment and Territories (Shoqata Shqiptare e Mbrojtjes se Ambjentit dhe Territorit)</p>	<p>Università degli studi di Foggia (University of Foggia - Italy)</p>	<p>The project proposal involves the creation of a new "Botanical Garden", which covers an area of about 40 hectares, located in Capo Rodoni, in the municipal territory of Durres, (Albania). The area of "Kepi i Rodonit" presents an important regional and national value for the environmental, natural and landscape characteristics present, to which is added also a great historical-cultural heritage The "Botanical Garden" project is divided into 4 main groups of activities listed below: 1. Governance and administrative management of the project; 2. Communication; 3. Interventions, projects and actions on sites and routes; 4. Cross-border local network. The first group of activities is closely related to the coordination of the project and its technical and administrative management. The second group of activities envisages the provision of information and training seminars for guides and tour operators referring to the paths and sites valorized with the project and the realization of a first university level education module on natural values and the eco-approach - Sustainable tourism in the area of interest. The third group of activities provides for the safety of tree planting, the adaptation of visitor paths for usability by the disabled, the upgrading of hiking trails within sites Valuable naturalistic, restoration of buildings and other capital works, purchase of equipment for the integration of services to visitors, realization of studies and projects for further improvement of the attractiveness of the goods and the safety of users. The fourth group of activities envisages the activation of a working group that will deal with the various experiences and knowledge of partners in relation to the spatial scope and topics of interest for the finalization of project objectives.</p>	<p>Central public institution, Local public institution, Other body governed by public law, Private non-profit organisation</p>	<p>Montenegro</p>	<p>ana.shtjefni@libero.it</p>
<p>"The past for the future"</p>	<p>"The past for the future"</p>	<p>My project consists in the creation of complete information and signaling for all the monuments of the region and tourist attractions, such as cultural tourism, adventure tourism etc. Which will include vertical and horizontal signaling as well as to guide the tourist with no problems with the guidance in several languages. In the caravansaraj roads there will be their regeneration or information on the history and traces of the old roads and stations. There is a lot of demand from tourists to cross the carriageway from Vlora, Berat, Voskopoja, Korca, Thessaloniki ... while staying in villages characteristic of natural (bio) treatments. All points will be explained by quarcodes (digital)</p>	<p>Private non-profit organisation</p>	<p>Puglia Region, Albania</p>	<p>nallbania@yahoo.it</p>

Regional Development Agency2 (Agjencia per Zhvillim Rajonal2)	Regional Development Agency2 (Tirana Albania)	<p>The objective of the project is to contribute to reinforcing the level of safety of artificial lakes in the case of unforeseen disasters, caused by natural or even anthropic events resulting from inadequate management of water resources.</p> <p>The project involves the drafting of feasibility studies and technical analysis, the development of policy strategies, plans and operational programs in the short and medium term to reduce environmental pollution and improve water management and public safety, which is at risk from Numerous artificial lakes, first heavily used for irrigation purposes and currently abundant seeds.</p> <p>The project will start with a study on the state of inland waterways and the state of implementation of existing plans to define their updating and enhancement by defining a Master Plan and an Operational Plan with the implementation of some demonstration pilot projects relating to Mass In safety of rivers and artificial basins, as examples of European best practices.</p> <p>Valorisation of coastal areas with the protection of the Adriatic Sea is a common objective of the three countries which necessarily requires a specific, coordinated and strongly integrated program to improve overall environmental quality, minimize environmental risks and facilitate the transposition of European directives in Albania .</p>	Local public institution	Puglia Region, Molise Region, Montenegro	sadetin.limani@rda2tirana.org.al
